**SUBJECT-MATTER OF THE PUBLIC CONTRACT**

The subject of the public contract is delivery of one piece of compact portable profilometer – a compact device for measuring mechanical parameters of machined optical surfaces. The device must be capable of measuring surface texture and roughness, surface shape and manufacturing defects of functional surfaces of optical components. The measurements shall be possible on freely positioned elements. The equipment must also allow the above parameters to be checked on the machined surface of the optical element being manufactured, which is placed directly in the machine. Measurements inside the machine tool must be possible without having to handle the element under test. The measured data will allow the quality of the optical surface to be evaluated and can also be used to provide information on the condition of the machined surface for the downstream step of the CNC manufacturing process.

In addition to the delivery itself, the subject of the public contract is also the installation, training of the operator and provision of warranty service. The detailed technical specification is set out in Article 2(2.2) of the procurement documentation.

A negotiated procedure without prior publication was not used.

***Section 217 (2) i) of the Act***

**justification of the use of a light regime, where such regime was used**

A light regime was not used.

***Section 217 (2) j) of the Act***

**justification of the cancellation of the procurement procedure where such cases occurred**

The Contracting authority canceled the procurement procedure for the above-mentioned public contract in accordance with Section 127(2)(h) of the Act, as there was only one participant in the procurement procedure.

***Section 217 (2) k) of the Act***

**justification of the use of means of communication other than electronic means for the submission of tenders, where such other means were used**

Tenders were submitted only electronically.

***Section 217 (2) l) of the Act***

**a list of persons who were found to have a conflict of interest and a list of subsequently adopted measures, where a conflict of interest was detected**

No persons with a conflict of interest were identified.

***Section 217 (2) m) of the Act***

**where the contracting authority does not divide an above-threshold public contract into lots, it shall indicate the justification of such procedure, unless it has already indicated it in the procurement documents**

The public contract is not divided into the parts, as the subject of the public contract represents an integrated electronic platform in the configuration necessary for the realization of all intended experiments. Due to the nature of the matter and to ensure full functionality and compatibility, it is therefore not desirable to divide the public contract into parts.

**Section 217 (2) n) of the Act**

**justification of laying down the requirement of turnover when proceeding pursuant to Section 78 (3), where it has not already indicated it in the procurement documents**
