**SUBJECT-MATTER OF THE PUBLIC CONTRACT**

The subject of the public contract is delivery of one piece of compact portable profilometer – a compact device for measuring mechanical parameters of machined optical surfaces. The device must be capable of measuring surface texture and roughness, surface shape and manufacturing defects of functional surfaces of optical components. The measurements shall be possible on freely positioned elements. The equipment must also allow the above parameters to be checked on the machined surface of the optical element being manufactured, which is placed directly in the machine. Measurements inside the machine tool must be possible without having to handle the element under test. The measured data will allow the quality of the optical surface to be evaluated and can also be used to provide information on the condition of the machined surface for the downstream step of the CNC manufacturing process.

In addition to the delivery itself, the subject of the public contract is also the installation, training of the operator and provision of warranty service. The detailed technical specification is set out in Article 2(2.2) of the procurement documentation.

In accordance with procurement conditions the purchase contract was concluded with the above-mentioned selected economic operator on the 19<sup>th</sup> February 2025.

### **REASONS FOR SELECTION OF THE ECONOMIC OPERATOR:**

The evaluation criterion of economic advantage was the lowest tender price in accordance with Section 114(2) of the Act.

In accordance with Section 122 (2) of the Act, the Contracting Authority **did not evaluate tenders**, because there was only one participant in the procurement procedure.

The commission found that the supplier's tender price was normal at the time.

Rank	ECONOMIC OPERATOR	Tender price in EUR without VAT

**Section 217 (2) m) of the Act**

**where the contracting authority does not divide an above-threshold public contract into lots, it shall indicate the justification of such procedure, unless it has already indicated it in the procurement documents**

The public contract is not divided into the parts, as the subject of the public contract forms a compact unit, where it is not technically possible to divide the public contract. Due to the nature of the matter and to ensure full functionality and compatibility, it is therefore not possible to divide the public contract into parts. It is a highly sophisticated unit, where it is not possible to separate individual components.

**Section 217 (2) n) of the Act**

**justification of laying down the requirement of turnover when proceeding pursuant to Section 78 (3), where it has not already indicated it in the procurement documents**

The Contracting Authority did not proceed in accordance with Section 78 (3) of the Act.
